CONTROL4® VIBRANT

UNIVERSAL EXTRUSION AND LENS – 5-PACK

CONTROL4 VIBRANT UNIVERSAL EXTRUSION AND LENS (5-PACK) - 3.2FT (1M)

C4-LEEL5-U-3F

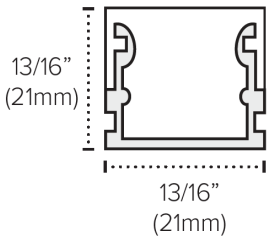

Due to the depth of the channel, this extrusion diffuses light from any SKU of indoor LED tape with zero LED spotting. For greater illumination, you can install two rows of tape on the side walls of the channel, or side-by-side on the floor.

- LED tape light can be installed on floor with zero dotting
- A second row can be installed on the floor or side walls for greater lumen output
- Frosted lens protects the light source while evenly diffusing light
- Lightweight anodized aluminum extrusion provides excellent heat dissipation
- Field cuttable extrusion and lens
- End caps available for a tailored look
- Compatible with 10-12 mm wide tape light (all indoor SKUs)
- Dimensions (H x W): 13/16" (21 mm) by 13/16" (21 mm) with an internal channel width of 5/8" (15 mm)
